Everyone is talking about private credit! With 2,300 who RSVP'd yes, and recognising the remarkable surge in private credit, driven by the demand for alternative sources of financing and the search for higher yields, this summit brought together top-tier industry professionals, decision-makers, and expert minds, with a focus on networking and education as private credit continues to evolve and grow as an integral part of our markets ecosystem.

🇪🇸 🌅 Early Morning Capital Markets Inspiration! 🌅 🇪🇸

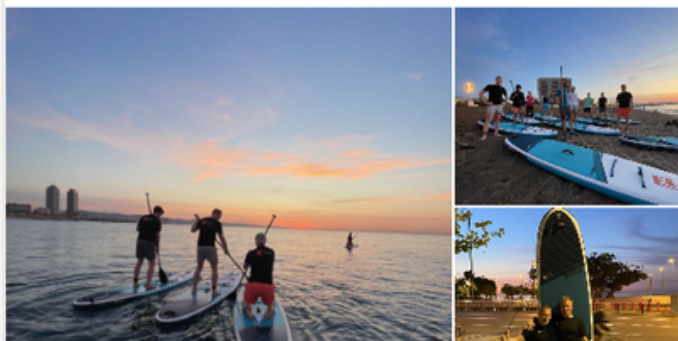

After a couple of hectic days at Global ABS Barcelona, my colleagues and I embraced the dawn with some 5:30am sub-padel boarding on the beach. 🌊 🌅

Witnessing the sunrise while paddling was a truly invigorating experience that reminded us of the importance of resilience and seizing opportunities.

Huge thanks to our friends at **Reed Smith LLP** for hosting this unforgettable morning! 🌅 🌊

What an incredible time we had at #GlobalABS 2024!

A huge thank you to everyone we saw at this year's conference—clients, friends, partners, industry colleagues, and old acquaintances alike.

We had an amazing experience, with CSC staff joining leading industry panels, the future leaders summit, and holding a non-stop meeting program with our hugely valued clients. More than 40 members of the team attended over the three days, providing a fantastic opportunity to catch up with our international associates from our major European offices.

A massive thank you to everyone who joined our biggest ever annual beach party. It was an unforgettable experience welcoming clients to unwind overlooking the beautiful Barcelona coastline.

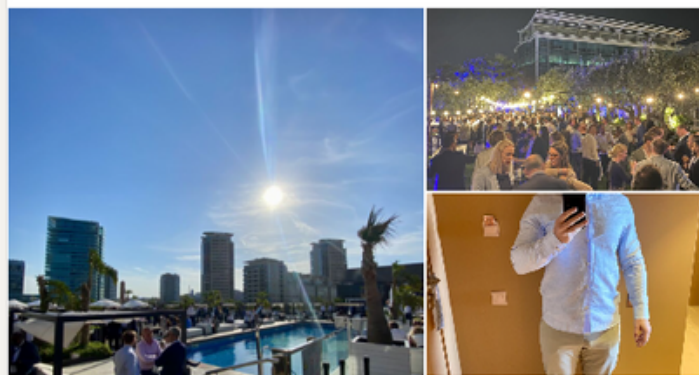

We're already looking forward to seeing you again next year!

A huge well done to the entire Lenvi team for a successful trip to Barcelona! Hundreds of engaging conversations took place during the conference, connecting with both existing lenders and funders, as well as creating new connections. Excited to continue these conversations in the coming weeks.

Who knew that #SRT could be so much fun?!

Frank Benhamou greatly enjoyed his panel at #GlobalABS with Timothy Cleary, Jason Marlow, Oliver Gehbauer, Alec Innes, Leanne Banfield and Jorge Lopez Herguido. It was an insightful and in-depth discussion with key issuers and participants in the SRT market.

Really enjoyed to (re-)connect with the community of asset backed financing in Barcelona at the Global Asset Backed Securities (ABS) conference.

The conference provided good insight in continued developments in securitization transactions. But also in using securitization structures and features in private deals:

- 🔦 Providing these investors/financiers access to an interesting asset class
- 🔦 Whilst giving financing platforms access to liquidity from a wider range of bank and credit fund investors

The latter was evidenced by the introduction of one day focussed on private credit with some interesting panel sessions.

Last week, members of our Structured Finance and Securitization team from across London, Paris, Frankfurt and Chicago represented Mayer Brown at the Global ABS 2024 conference in Barcelona. Partners Neil Hamilton and David O'Connor also participated as panelists at the conference.

To cap it off, we hosted our annual poolside client reception with 180 people in attendance including our 30-strong Mayer Brown team, the largest ever at ABS Barcelona.

It was an excellent opportunity to deepen client relationships and build new ones. Thank you to our clients who were able to join us for our reception. See you in 2025!

Fantastic week spent in sunny **#Barcelona** for **#GlobalABS** discussing the latest trends and opportunities across **#privatemarkets** **#securitization** and **#DCM**.

It was great to spend time with so many familiar faces and make some great new connections. The positivity and excitement around what **Invezzor** is doing as a **#FinTech** to support Agents and Law Firms in the issuance of debt was great to see. We look forward to working with many of you over the year ahead as we help you provide more efficient, transparent and connected debt issuance for all ecosystem participants.

Time to sleep...

Just attended my first Global ABS conference with **Ricky Walker**. It was fantastic to be able to meet up with so many people over a busy couple of days. Also made some interesting talks and managed a walk out one evening for some local culture courtesy of Gaudi! Now for the follow ups...

And that's a wrap! **#GlobalABS 2024**, you didn't disappoint! A special thank you to our clients, partners, future clients and future partners who took the time to meet with us! A shout out to **Sean Bowerman**, **Riley Cox**, **Andrew McClymont** and **Mike Benz** for making the conference incredibly productive (and the laughs)! Bring on next year!

-  Is consumer loan abs vol suppressed by regulatory uncertainty? Private credit made headway in leveraged loan, can it come to aid consumer loan issuance as well?

-  The Australian market seems to be a recurring theme at the conference. I understand that there has been a large volume of activity, though how does RV stack up?

-  Macron and Scholz in FT last week: “We need to relaunch the European Securitisation Market.” Will this result in needed changes and if so, in what time frame?

-  Will the US regulators remain supportive of SRTs?

-  How do you see the role of new credit originators such as Buy Now Pay Later, neobanks, etc, in the supply of assets?

-  In the CMU discussion there is often the idea for a guarantee mechanism similar to Agency MBS floated to stimulate the EU sec. market. What’s your view on this?

-  Securitisations of direct lending need mezzanine appetite which is pretty limited without an external rating. Are funds ready to take unrated tranches?

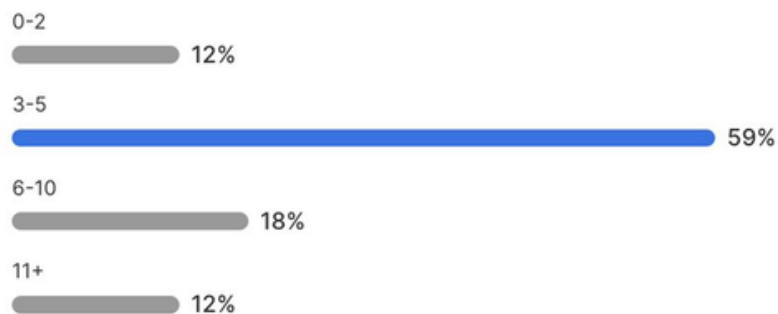

-  When pitching ABF to European LP’s, that falls under EUSECR, to what extent does the regulation create hurdles for sourcing assets?

-  How much of the perceived outperformance in private credit is being skewed by the ability of managers to influence internal marks vs. liquid markets?

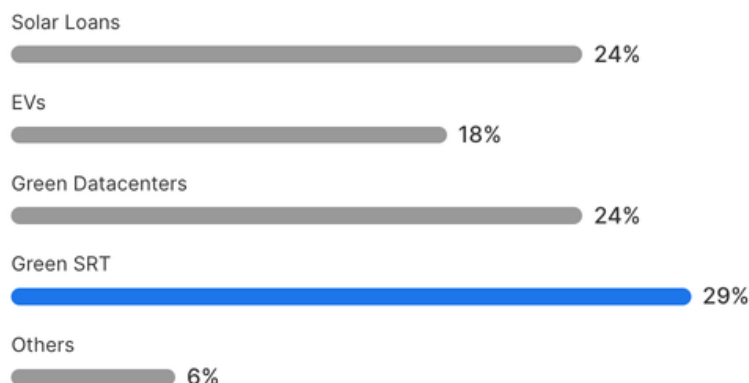

-  How do you expect regulators to react to the rise of private credit? Given the inherent lack of transparency, what interventions are most likely?

-  How do you cope with the increasing complexity of deal sourcing, risk management, LP requirements?

The "real quiz" at the European securitization industry's biggest annual conference

Every year, Invisso's Global ABS in Barcelona is a hive of activity: the rush to get registered; walking through the totally performative security guards; catching up with old friends; and listening to many excellent panelists.

But the real action, at least as far as GlobalCapital is concerned, is in the weird and wonderful giveaways on display in the exhibit hall.

After the success of the SF Vegas Swag Awards earlier this year, the European version of this very official "totally unofficial" review is here.
